

I have a new co pilot on my crew now. Seems to be a much better man than my previous protege. I am just about satisfied with my crew. There is still room for improvement. That is in the individual I mean. I would not care to get rid of any of them. We have a record here to be proud of. Would you like to learn of it? Okay. We were the first to finish first and third phase missions. Someone else took that honor during second phase. Last month we had the best bombing record in the squadron. Even I turned in the best instrument check ride in our squadron. I'm proud of the lot.

I intended to see Ward this week end. Our shipping orders came sooner than we expected so my plans are changed. I was to meet him at York Cite Sayles.

Well sister I shall drop you a few lines after I get to P.O.E. Till then, keep a stiff upper lip. Hum  
Love  
Tony
