

SELMAN FIELD  
MONROE, LOUISIANA

Tuesday 6/24

Dear Mom,

Received your last letter on Saturday, but haven't had time to answer until now.

There is never very much news to write from this end. Things are always the same. We go to classes, study & take exams. There's no time for very much more.

This past week-end I had my first full week-end off, & it sure felt good. Aside from the week-end I'm also supposed to get Thursday night until 11:30, but, very often we have a night class on Thursday, so we take Wednesday or Tuesday, the night when no classes are scheduled. We don't take Friday open post because we have to study then for our Saturday exams. I believe I told you that every Saturday we have a 4 hour exam & every third Saturday we have a 7 hour exam. This coming Saturday we

take our first 7 hour exam.

The Chadwicks left here yesterday, & are going to spend some time at Hot Springs. It's only about 150 miles from here, so Pearl went with them and will be back Friday. It's supposed to be a very nice resort in the Ozarks, & it's much cooler than here.

How is everything & everyone in New York? You always mention such silly things in your letters — like someone writing to Orey. Most of the fellows have girls or wives, & can't find enough time to write to them. There isn't any time for that. Besides, they don't even like to write letters.

Well, that's about all there is to write. I have to go to class in about 5 minutes. I am enclosing a picture of Pearl & me. It's the only good one we've taken so far. When we take more, we'll send you some.

Regards to everyone & let me hear from you. You're always complaining about me writing, but I wrote a half dozen letters to your one.

Marty
