

Sunday, May 21

Dear Mom & Gray,

Haven't received a letter from you in over a week, but received one from Gray about three or four days ago. Have been kept pretty busy during the past couple of weeks, & don't have very much time to write.

Nothing new to write from here. Everything is still about the same. We just fly, sleep, & eat, & that's about all. Movies at night are our only recreation.

I'm all right, however, except that I miss being back home & with Pearl. Wednesday was our anniversary, & I sure wished that I was home that day. I hope it won't be too much longer, though, before I get back.

How have you been, & everyone else at home? How is Grandma? I guess that by now, she is home from the Hospital, & you are not rushed quite so much. I suppose you are still very busy at the office, but that's to be expected, & will probably continue until the war is over.

Now that summer is very close, I know that you must be making plans for your vacation. Orey says that she would like to spend her vacation at the beach & I guess you would, too. You'll both take your vacations at the same time, won't you? Down here, it's almost winter, but you would never know it, because it's warmer than you have it right now.

That's all I can think of right now. Now that you have a little more time, let me hear from you more often. Give my regards to everyone at home.

Love,

Matty

P.S. Tell Orey her jokes are old & I've heard them even down here in the middle of nowhere.

M.
