

Wednesday, May

Dear Mom,

Received your letter of April 20th only the day before yesterday, & it is the first mail I've gotten in over a week. It's almost ten days now, since I've had a letter from Pearl. I think I received later mail from you over a week ago, & answered it, so you see how the mail situation is out here.

There is nothing unusual to write about. Everything is still the same, flying, eating, sleeping, & some time to rest. We haven't flown the last couple of days, & so I'm well rested now. However, I expect to be on the go again tomorrow. I know that you've been keeping up to date on the news from this theater, but don't believe everything you read in the paper. For instance, that clipping you sent me is greatly exaggerated. There never were so many zeros up there. I don't know those fellows. They must be in the other group, & Sid might know about them, he is on next leave now, & I haven't seen him since. So I can't ask him about it.

Know that you are all right, although I get letters, that Grandma is much

& probably home by now. I suppose you are making vacation plans now, & you & Orey will spend your vacations together somewhere. What do you expect to do? I wish that I could be home to spend the summer at the beach with Pearl & you.

Well, that's about all right now. I'm okay, so don't worry about me. Remember me to everyone at home. If you don't receive mail regularly, it's not because I don't write. Look at how long I have to wait for mail. Keep well, & let me hear from you soon.

Love,

Marty
